White: 'Chance For Senior Housing Lost'

by GLORIA DAVIS

With four voting to try for 100 percent senior housing in Antioch and one voting against, the Antioch Village Board has probably lost its chance to get senior housing in the area in the near future.

So says Board Member Rod White, the one who cast the negative vote. White says that he was for accepting the Lake County Housing Authority's (LCHA) proposal of bringing 100 units to Antioch with one low income unit for every five senior units.

White says that the LCHA's proposal of putting the senior units in one spot and spreading the 20 low income units throughout the village seemed to be the only way that Antioch would get funding for senior housing at this point in time, since no other ways of funding housing for seniors has been found.

He stated that he felt that 20 low income units spread about the village would hardly be noticed.

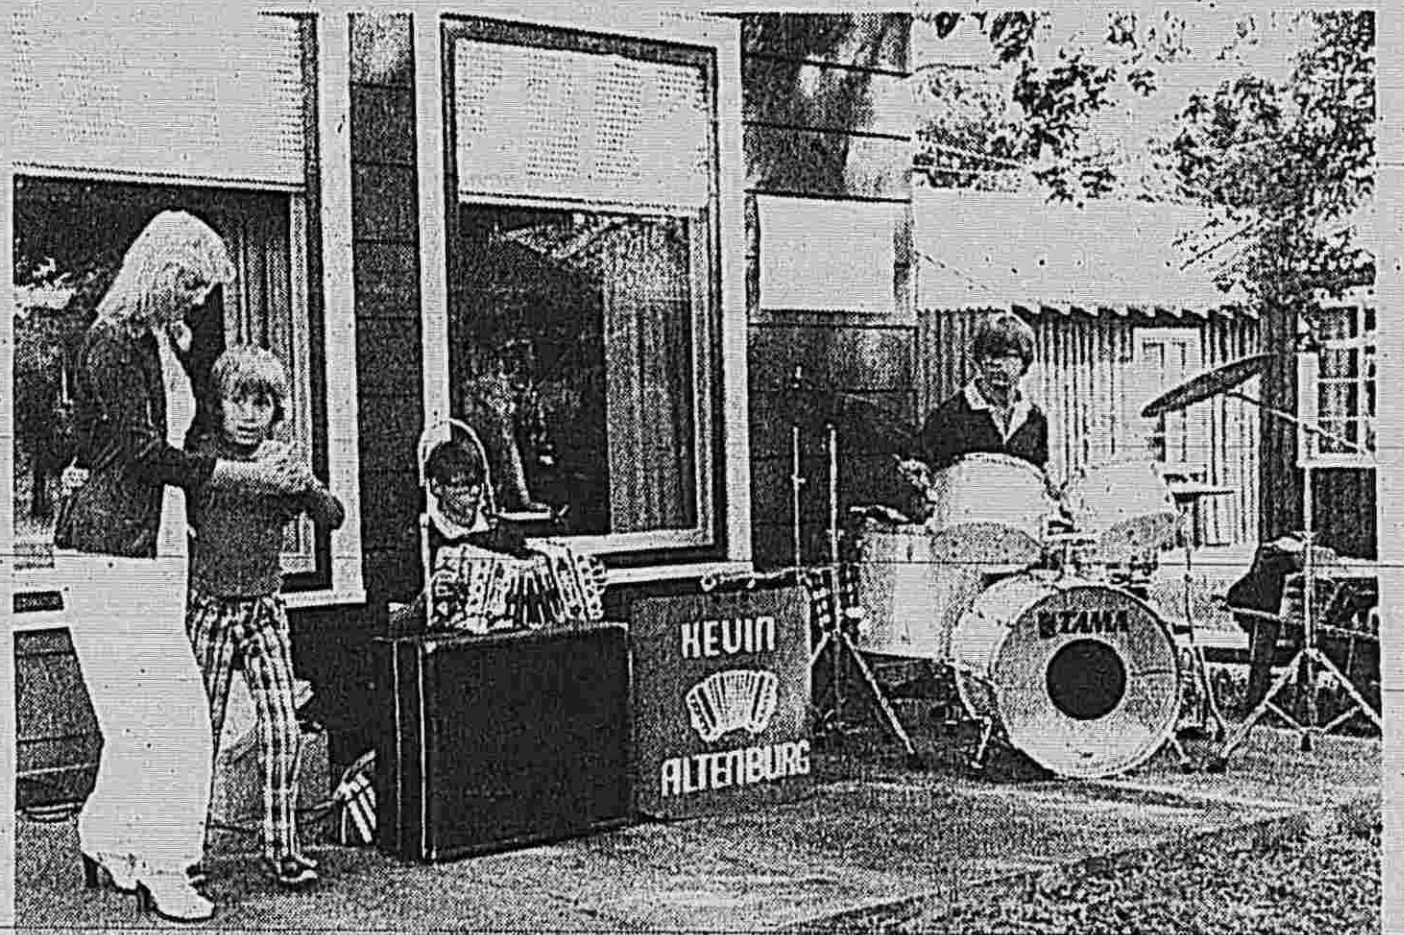

Trustee Claudette Skvarce, one of those who voted for the 100 percent senior housing, reported that she and eight volunteers had telephoned residents asking them if they were in favor of the split housing or either senior or low income housing alone.

Her report has 453 residents for only senior housing, 104 in favor of only low income housing and 117 in favor of both.

Skvarce stated at the meeting held on Monday, August 31, that the majority of people in Antioch want the board to look into alternate plans for senior housing instead of accepting the LCHA proposal.

Skvarce warned against "governmental strings that could be attached to low income housing."

When the split proposal, which also included housing for handicapped, was announced by the administration under Mike Haley, many residents were very vociferously against it.

Boards agree to split cost of utilities

The meeting on the renovation of the old grade school on Main St. into a local historical museum, formerly planned for Sept. 9, will not take place.

According to School Supt. Donald Skidmore, since that meeting was scheduled, an agreement has been reached between the school board, owners of the school, and the Antioch Village Board.

This agreement has both the school and the village splitting the cost of the school's utilities for the next year. "It will give the luxury of time to those citizens who have volunteered to work on the project," says Skidmore.

Interested citizens have not chosen a name for their group, but they have held a meeting and Antioch Township Supervisor Jim Fields reports that he and Bill Brook will approach the different community organizations, asking them for donations to be raised and given in a variety of ways.

With a year to raise the money to start the project, Fields says the actual working committees, designating who will do what in, what they hope will be a community endeavor, will take place after some money for the plan is raised.

YOUTH BENEFACTOR HONORED — Twenty five years ago, Paul "Dutch" Zeien built mini-park in his backyard for use of neighborhood kids. The park included baseball diamond and basketball court for kids to play on. On Sunday, August 30 many of those kids, now grown with families, and Zeien's friends and relatives gathered at Abbey at Benet Lake to celebrate Zeien's 65th birthday. Over 100 guests were there to honor the man who brought so much joy to kids over years. Above, Zeien gets happy birthday wish from his daughter Helen.—Photo by Gary Quedenfeld.

Carole Reports

Teens commit 23 percent of crimes

BY CAROLE RISK

Twenty three percent of all crimes committed in this country are being committed by youthful offenders. Is this true of the Antioch area?

Probably yes said spokesmen for the Antioch Police Dept. and the Lake County Sheriff's police.

Both departments emphasized that the crime rate has dropped in Antioch, proper and in Lake County but both agreed that youthful offenders are the most common.

Why? I interviewed several kids that have been in trouble, (these kids have been caught and punished) and the most common answers were: "There was nothing to do, or it was just something to do, or I didn't do anything I was just with them, I wouldn't do anything like that."

What kind of answers are these parents are asking themselves, when their children are being brought up in one of the finest recreational areas in the state of Illinois.

These kids that I talked to come from nice homes, and are well loved, and well cared for.

They are not neglected, abused or underprivileged.

Taking each of those answers separately, it is true that during the summer there are very few organized recreation programs except for athletic ones for 14 to 17 year olds, and the unemployment rate for this group is especially high.

A small area like this doesn't offer much in the way of part time jobs that kids can handle or that they can be legally hired for.

Most parents, upon careful questioning,

will find out that their children do know the difference between right and wrong, but they do not understand that they are also accountable for the actions of their companions.

Some of the problems with young people can be solved with organized recreation and "make-work" programs to keep them busy.

Most important of all spokesmen for both police departments stated is the parental involvement.

Whether the child comes from a one-parent home or a two parent home, it is the amount of time that parents are willing to be involved with their kids that counts.

Maybe the reason that I got the answer so often, probably most parents have heard that answer at least once, is that perhaps enough time was not spent on conveying the finer

points of right and wrong.

Granted its hard to find time, just making a living is rough, but when professional law enforcement officials say that time is what kids need, make the time, the kids deserve the chance.

Jim Fields, Antioch Township supervisor, is happy that the lawn maintenance program for senior citizens was a success but there are no more funds available for this program and there will not be any further help through the township this season.

Hopefully this program can be included in the budget next year and the maintenance aid program can be extended for a longer period of time next summer.

This year the program was brought in after the budget was established and the funding was difficult to find.

Invited to view machine

The officers and members of Rebekah, District Association 3, of which Lakeside 82 Antioch, is a member, would like to invite the people of Antioch to view and see a demonstration of two different kinds of Visualtek machines.

A Visualtek machine is a video system that enables persons with low vision to read and write, more easily. These shall also be a 20 minute film, and than a question answer period.

The members of the Rebekah organization feel that this is a most worthwhile project to participate in and inform the public about.

The date, Sept. 23, Wednesday evening, at 8 p.m., at the American Legion Hall, Ida Ave. Antioch. This program is open to the public, so come and bring a friend.

Children's exploiters break law

Gov. James R. Thompson signed legislation August 6 that creates a new Class X felony for the sexual exploitation of a child.

"Exploiting children is one of the most repugnant crimes in our society," Thompson said. "This legislation will provide law enforcement officials with the tools they need to take criminals off the streets and put them behind bars where they belong."

Under the new law a person convicted of sexually exploiting a child could be subject to a minimum of sentence of six years of prison and up to a maximum sentence of 30 years in prison with no probation and no parole.

Senate Bill 1, supported by the governor, passed both houses of the general assembly with no dissenting votes. It takes effect immediately.

The first portion of the bill increases the penalties for the crimes of soliciting a juvenile prostitute and pimping for a juvenile from a Class 4 felony to a Class 1 felony.

The second portion of the bill creates a new Class X crime for sexually exploiting a child.

Unidentified body found north of Wis.-Ill. line

The body of an unidentified white male, around 50 years of age, was found north of the Wisconsin-Illinois state line on Tuesday, Sept. 1, by a Kenosha County highway employee.

The man, still unidentified as of last weekend, even though a set of finger prints had been taken from the badly decomposed body, had been shot once in the head.

The corpse was found, in a cornfield, 40 feet on the other side of a fence, five tenths of

a mile west of County Trunk U, in Bristol Township.

The man was five foot seven, weighed approximately 200 pounds, had black hair and brown eyes.

He was found clad in brown pin striped pants, a tan pin striped shirt and light brown dress shoes.

The Kenosha County Sheriff's Dept. is investigating the incident. Anyone knowing of the possible identity of the victim is asked to get in touch with the sheriff's department.

Maximilian I, an Austrian prince, originated the tradition of the diamond engagement ring in 1477. His bride was Mary of Burgundy, whom he had never seen until their marriage.

The Time Machine

50 YEARS AGO: SEPTEMBER 10, 1931

Complete vindication of three Antioch men — Richard Macek, former owner of the Antioch Palace; H.P. Lowry, plumbing contractor; and Robt. C. Abt, banker and realtor, was ruled by appellate court judges Tuesday when the case in which they had been sentenced to jail in contempt of court reversed without remanding to the lower court for a new hearing. The action of the appellate concludes the case which has attracted wide attention in this locality.

One of Antioch's old landmarks, the sturdy barn on the property of Mrs. D.A. Williams, and its contents of machinery and hay owned by J.B. Krom and Dr. W.W. Warriner, were completely destroyed by fire of unknown origin Monday noon.

Press reports throughout the state late yesterday and this morning indicated that State Auditor Oscar Nelson had been named yesterday in two true bills voted by the Lake County special grand jury, charging him with Misfeasance and malfeasance of office in connection with the affairs of the closed Waukegan State Bank.

The county poormasters are trying to have the county board care for the papers until the townships can levy and collect taxes under the recent bonehead legislation which transferred the poor from the county to the townships.

The county will seek to have the townships pay from 50 cents to \$4 per day for the sick at the county hospital.

30 YEARS AGO: SEPTEMBER 13, 1951

Antioch is having a wide variety of weather this week. From cool weather of last week the temperature rose to 90's yesterday and then cooled off with a rain and a cold wave that is expected to drop the mercury into the 40's in a few hours.

Hans Von Holwede, teacher of music in the Antioch public schools for the last 22 years, formerly tendered his resignation to the board of education last evening. Mr. Von Holwede has accepted a position as director of studies and sales activities for the Hammond Electric Organ Co. and will be stationed in Elgin.

No high school is free from the danger of dope users, the Rev. Louis King chaplain of Bridwell House of Correction, Chicago, told Antioch Lions Club at their meeting Monday evening. Most cases of dope users involve marijuana, but from that type of dope the youngster soon passes to the stronger drugs and the use of the needle. Then he is lost.

10 YEARS AGO: SEPTEMBER 8, 1971

Sears, Roebuck and Co.'s new catalog and retail appliance store in the Antioch Shopping Plaza, Orchard and Hillside, in Antioch officially opened at 10 a.m. September 2.

Mrs. William Brook and Mr. Preston Reckers who served as Crusade chairmen for the American Cancer Society announced today that Antioch has gone over the top of their 1971 Crusade Goal.

John W. Horan of Antioch just discovered that he has won first prize with his Model A car in the Kenosha County Fair Parade. His car was judged the best in a contest of 1928 and older antique cars.

When I think about it

Letter of law seems to need re-addressing

by GLORIA DAVIS

The other night, on the 10 o'clock news, there was an editorial on the inequities of our criminal justice system that was a real eye opener for some and just another confirmation for others.

The commentary was on the objection of a local law enforcement official to the judiciary system based on the previous records of those arrested for other crimes over the past weekend.

Of the 18 arrested, many had been already charged with crimes of a similar nature but set free by the mechanics of our courtrooms.

Set free to evidently continue with their life of crime, preying on innocent citizens, most of whom ironically probably believe in justice for all.

Now believe me, I don't know the solution, but there's something wrong with a system that seems to be progressively leaning towards the protection of the criminal instead of the innocent.

Many policeman are weary of the treadmill they're on of the investigation, the chase, (sometimes life-risking) and finally the arrest that is culminated when some judge sets the suspected offender free, often on a legal technicality.

I often think that there is good basis to the old sayings about never trusting a lawyer because he's just practicing and having less faith in a judge because he's just a lawyer with a robe fetish.

And I also frequently question the quality of the "jury or our peers," since most of my peers tend to use all the loopholes available when it comes to ducking out of jury duty.

Is it right when a clever lawyer is capable of tying a nervous witness into such a confusion of knots that they can barely remember their own names, not to mention their testimony, whether true or false.

I was in court once when a defendant whose arrest record rivaled "Gone With the Wind's" thickness, most of them on the same charge, of assault and battery, went scott free because an overworked police officer forgot to read him his rights at the time of the arrest.

Two weeks later the same person killed a man in a bar fight and seriously injured a policeman who tried to intervene.

My father-in-law who was a Chicago cop for 25 years once arrested a suspicious character who was loitering around a business area late at night.

When he was searched they found a very complete set of burglary tools on his person.

A smart lawyer soon had him released on a writ because there is no law on the books preventing anyone from carrying all the burglar tools they want, whenever they want.

A week later he had his head blown off by a night watchman while in the process of breaking into a store.

There's a case of a criminal being protected too much for his own good.

Why don't the courts just look at the facts instead of allowing them to be buried under a lot of legal jargon?

Maybe Justice is blind, but if she continues to be deaf and dumb. We should do something about getting her a hearing aid and teaching her some sign language?

Along the way with ANNIE MAE

The talented people from PM&L will hold their annual awards dinner on Saturday, Sept. 12, at the LaSalette Center, Twin Lakes.

So many good performances have been given by that group, I just don't know how in the world they pick the winners.

Congrats to Marv and Bette Heath, who celebrated their 40th wedding anniversary with 60 friends and relatives, at the Antioch Moose Lodge, on August 2.

The surprise party given by their children, Dave and Gail Heath, Pat and Rick Magee and Kathy and Phil Langhof was a real bash.

I see that Havilland Plumbing is relocating to 40930 N. Rte. 83.

Eunice Rawson has been busy organizing a luncheon for the members of the Alpha Nu Chapter of the Delta Kappa Society, for their international meeting to be held on Sunday, Sept. 12, at 11 a.m..

No wonder those bankers are always so smart, they're continually going to school!

Jack Harper and Maryanne Kaht, of the State Bank of Antioch, attended the 37th annual session of the Herbert V. Prochnow Graduate School of Banking, at the University of Wisconsin at Madison, this summer.

Old Annie Mae has gotten herself some new golf balls, well almost knew, okay so I picked up those misplaced slices along Grass Lake Rd., outside of the Harbor Ridge course.

With these and my hot pink golf hat, I intend to steal the show at the Republican Golf Outing, at Harbor Ridge Country Club on Wednesday, Sept. 16.

MARTIAL ARTS ASSISTANT — Instructor Song will be assisted in the martial arts class by Loretta Broberg. She will be at the 2:30 p.m., Sept. 13 demonstration at the Old Fire Station. Signup for the Parks' classes is being taken now with classes to begin on Sept. 21.

US imigrants grow

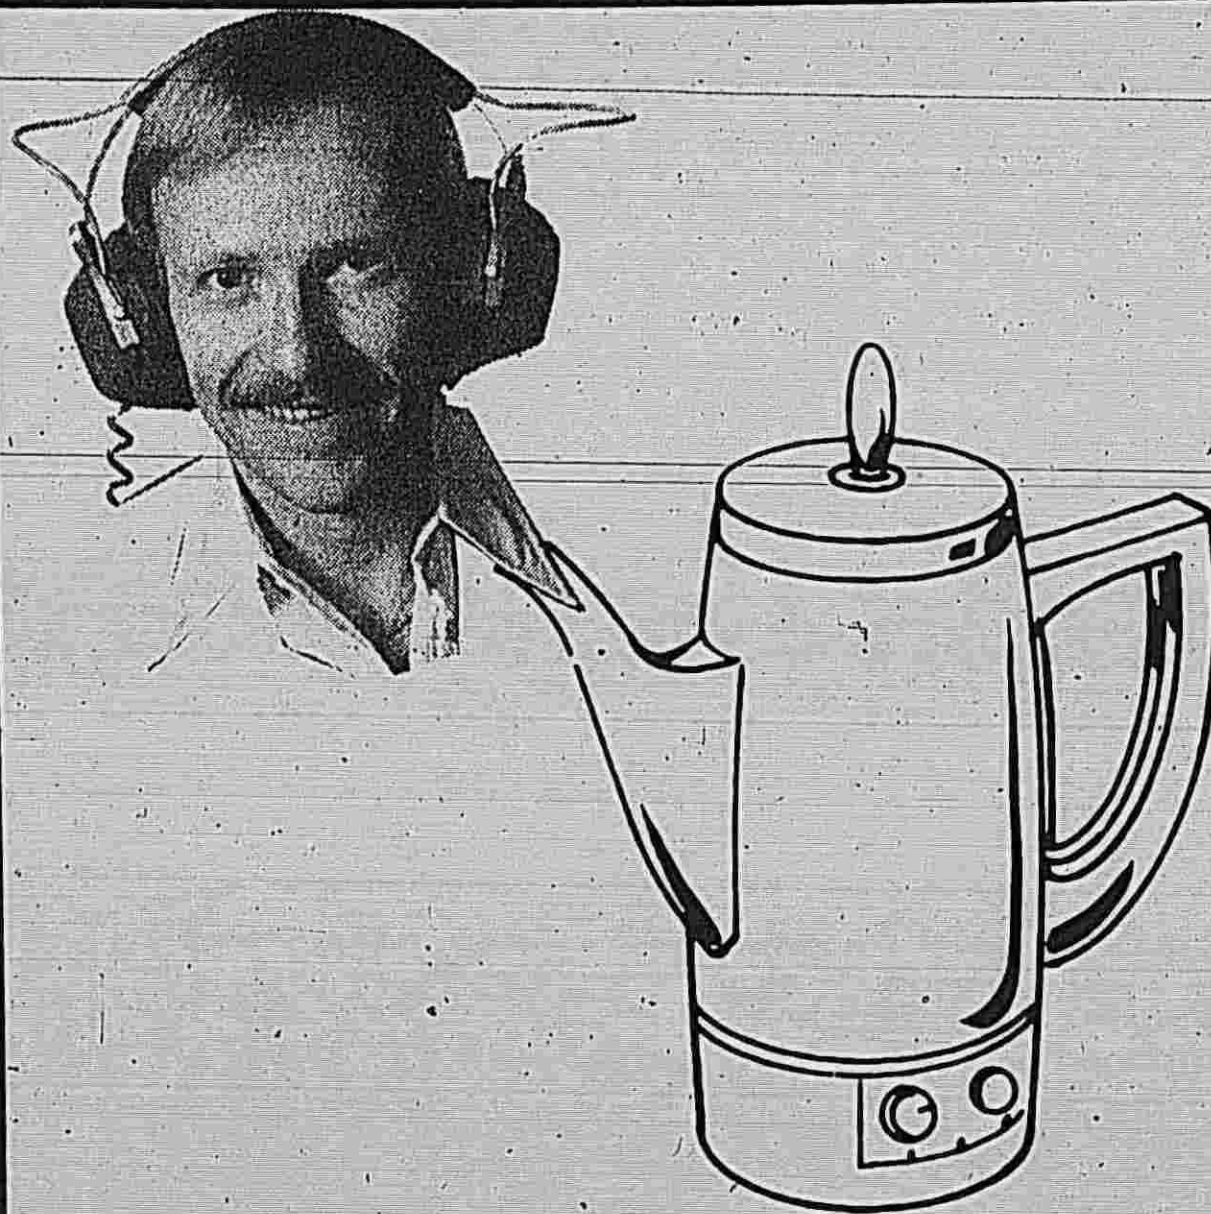

Last year, more immigrants both legal and illegal, entered the United States than at any time since the early 1900's. Congressman Robert McClory (13th Dist.), said August 26.

Including the Cuban and Haitian entrants and other refugees, mainly from Southeast Asia, a total of 800,000 persons were admitted under various federal programs. In addition, between one million and 1.5 million entered our country illegally in 1980, mostly from Mexico.

This unprecedented flow of immigrants, refugees, and so-called "entrants" is posing massive problems for

Fahner intervenes in Bell rate hike

Illinois Atty. Gen. Ty Fahner has petitioned the Illinois Commerce Commission to intervene in Illinois Bell Telephone's \$406 million rate hike request.

The rate hike for Illinois Bell's 3.5 million customers in Illinois would raise phone bills as much as 45 percent Downstate, 41 percent in the Chicago suburbs and 22 percent in the city of Chicago.

"THE ATTORNEY general's public utilities division will carefully scrutinize this increase and challenge the phone company's case," Fahner said. "Rate payers can be assured of complete and competent representation before the ICC in this matter."

Fahner said Illinois Bell's requested 13.7 percent increase in overall annual revenue requires particular review in light of recent successive hikes allowed Illinois Bell and AT&T by state and federal commissions, which has increased costs to consumers.

Illinois Bell was granted a \$159 million revenue in-

crease in December, 1980, by the ICC and also has been granted some "911 emergency" installation charges. American Telephone and Telegraph Co. received a 16 percent increase in rates for long-distance calls in June 1981.

The attorney general has currently intervened before the ICC to request Illinois Bell phase-in new telephone installation costs that could rise 340 percent. The Federal Communications Commission has mandated the installation cost hike, but Fahner is requesting that the increase be phased-in over four years instead of being charged to consumers immediately.

"Telephone users in Illinois are being faced by several rate hikes for services in a very short period of time," the Attorney General said. "This is a broad economic and social concern."

"TELEPHONE service is no longer a luxury in our society," Fahner said. "It is a serious problem if

telephone service becomes so expensive for the poor and those on fixed incomes that they cannot afford the service and therefore cannot summon emergency help or make routine contact."

Illinois Bell, which attributes the rate hike request to "inflation and the increased competition in the communications industry", would raise a pay telephone call to 25 cents—putting Illinois among the five highest priced states for such calls in the nation; an additional 15 cents for operator-assisted calls within Illinois; an extra 40 cents for person-to-person calls; five more cents for each credit card dialed by the customer; and would raise local service charges.

The proposed general revenue increase would give Illinois Bell a return on equity of between 16.4 percent and 17.7 percent.

The attorney general will begin opening arguments in the rate case Sept. 8. The hearings are scheduled to run through March, 1982.

55 mph speed limit saves Ill. lives

Strict enforcement of the 55 mile per hour speed limit has cut Illinois's traffic death toll to 1049 fatalities for the first seven months of 1981 from 1083 for the same period last year.

Captain Hugh S. McGinley, commander of State Police District 15, would like to cut that death toll even more and knows how it can be done at no cost to the motorists.

Statistics indicate that a national death toll of over 50,000 traffic deaths per year and a state toll of 1994 per year could be cut from 20 to 50 per cent if all motorists would only use their seat belts. At present only 9 per cent of the people riding in motor vehicles use seat belts. In Illinois that could save 499 to 997 lives per year, McGinley said.

People always seem to find some excuse why they won't wear their seat belts. The most popular one is the misconception of being trapped inside the vehicle in case of fire or falling into the water. Accident records show that less than one per cent of those who die in traffic accidents are trapped in the vehicle.

McGinley added, that in

times when costs are rising daily, I'm surprised that people don't take advantage of the free life and accident insurance just fastening their seat belts.

SEQUOIT LETTERMEN — Antioch High School's varsity football team has 13 lettermen returning to this year's squad. The Sequoia open their season at 2 p.m. Saturday, Sept. 12, against Crystal Lake Central at home.

Sequoia lettermen are Carl Amundsen, Jim Kemper, Dave Walsh, Dean Berkiel, John Haling, Steve Sheedlo, John Lloyd, Ralph Buxton, Ed Jorgensen, Tim Higgins, Matt Stevens, Mike Kotlinski and Bob Thain.

TAKES TRACK SECOND—Steve Kensey, Allendale's second place winner in the Illinois Inter-Agency Athletic Assn.'s state championships, shows his winning form during practice. Steve, a resident of Allendale's group home in Waukegan, leaped 10 feet six and one half inches.

Allendale wins track meet

Ten of Allendale's residents recently participated in the Chicago Inter-Agency Association's Annual Track Meet held in Chicago.

Of the 10 taking part, five took first place in their events.

These included 70 yd. low hurdles, shot put, running long jump, mile run and softball toss.

The other five entrants took seconds and thirds in their respective events.

This record gave the Allendale residents an option to enter into the Illinois Inter-Agency Athletic Association's statewide track competition.

Under the coaching expertise of Scott Sanberg of the Allendale recreation staff, the first place winners went to Springfield to compete in their events.

This is the first time in Allendale's history that its residents have competed on a statewide basis.

Although the competition was tough and Allendale's boys were somewhat apprehensive about the competition, they took first place in the 70 yd. low hurdles and a second place in the running long jump.

A real surprise was the softball throw which went a

distance of 254 feet; that's almost the length of a football field. That toss was third place statewide.

All in all the experience was a very valuable one for Allendale's boys and their coach.

Sequoia 'Looking good!'

The Antioch Sequoia Football Team intends to change a few things this season, especially their standing in the Northwest Suburban Conference.

Although they were co-conference champs, with Warren in 1979, rolling right to the quarterfinals of the state playoff, last year's 4-3 season left something to be desired by Sequoia fans.

With 13 lettermen returning, Coach Steve Wapon thinks the team's outlook is pretty good this year.

Wapon says, "Our defense is looking excellent. They're way ahead of the offense."

One of the strong points of Antioch's defense is the fact that they have experienced people in every area.

Wapon is also depending on his returnees to help "make the offense move," while looking for offensive consistency, a point he has always stressed.

"We will start and play 22 players, going to a two platoon system," says Wapon.

The Sequoia opener will be against Crystal Lake Central, at home on Saturday, Sept. 12 and their second non-conference game will be on the road, against Woodstock, Friday night, Sept. 18.

Returning lettermen include: Carl Amun-

dsen, 6-2, 217 pound defensive end; Dean Berkiel, 6-3, 185 pound linebacker; Ralph Buxton, 6-1, 185 pound offensive guard; John Haling, 6-1, 187 pounds, injured last season; Jim Kemper, 6-2, 205 pound defensive tackle; Mike Kotlinski, 5-11, 200 pound runningback; John Lloyd, 5-11, 176 pound offensive guard; Matt Stevens, 5-9, 162 pound runningback; Bob Thain, 5-8, 140 pound offensive end; Tim Higgins, 6-2, 169 pound end; Ed Jorgensen, 6-2, 201 pound offensive tackle and Dave Walsh, 5-11, 153 pound defensive cornerback.

Kotlinski is expected to fill the spot left by last year's star Mark Pomozak.

Juniors showing promise are Bill Carney, 5-11, 190 pounds and George Bessett, 5-8, 162 pounds, both offensive backs and Kevin Kovach, 6-2, 186 pound offensive tackle.

Scott Poulter, at 5-9, 156 pounds and Tom Adams, 6-1, 140 pounds, will probably be Antioch's quarterbacks.

John Andre, Craig Sheedlo, Kevin Tuley and Andy Lehn will also back the Sequoia's line.

Wapon's coaching staff is made up of Ted DeRousse, defensive coordinator; Tom Baba, defensive line; Steve Scott offensive ends and Del Pechauer, offensive interior line.

Immigrants

(Continued from Page 5)

our national government and for many state and local units of government, McClory said.

Millions of Americans who are without jobs complain that his inordinate influx of aliens to our shores is depriving them of employment and other benefits to which they feel entitled as full-fledged American citizens, he said.

Spurred particularly by the arrival of more than 17,000 Haitians in recent months and the continued flow of illegal aliens from Mexico, President Reagan has proposed policies for dealing with this explosive problem, McClory said.

It is recommended that we step up our enforcement procedures to discourage or prevent illegal aliens from reaching our shores by water from the Caribbean. Vessels which leave U.S. ports suspected for purposes of transporting illegal aliens to the United States would be subject to stiff penalties.

New legislation will be requested for the expeditious handling administratively of those who seek United States asylum.

New measures will be inaugurated to facilitate the return to the countries from which they came of all persons not eligible for admission as refugees or immigrants.

In advancing these programs the Reagan Administration will make renewed efforts to secure international cooperation, particularly from Latin American countries.

Coupled with these efforts to retard this unlawful violation of our boundaries by illegal aliens, the President has recommended a program of stiff sanctions against employers who would exploit the Haitians and other illegals who might be tempted to come here in the future. Such employers who knowingly employ such illegals could incur stiff fines and even imprisonment under a proposed law to be considered soon.

Lions show gratitude

The Antioch Lions Club has scheduled a dinner-theatre party for Lions and their ladies Oct. 22. The Lions Club has reserved a block of tickets for the musical "My Fair Lady" at Marriott's Lincolnshire Theatre, with a New York strip steak dinner at Marriott's Resort preceding the play.

"My Fair Lady" has been called Lerner & Lowe's best work by some. Based on the famous story of George Bernard Shaw.

The dinner is set for 6 p.m., curtain time is 8:30 p.m. Lion President Jim Knigge has arranged this special evening of fun, food and entertainment as a way of saying thank you to the ladies.

Reservations for the dinner-theatre party must be made by Oct. 1st. For more information call Joe Hunley at 395-4228.
